

	UNION CENTER FIRE COMPANY INC. Best Operating Guidelines	
	Subject: Equipment	BOG Series General
		Initiated 01/01/04
Approved: Fire Chief Chris Hoyt	Revised 03/02/13	

As soon as the incident is under control, equipment should be made available for another call as soon as possible.

All equipment will be cleaned and placed on the proper apparatus after each alarm.

The refrigerator on Rescue 53 will be restocked after each incident or training.

When equipment is found to be missing or broken, report it to the Truck or Chief Officer as soon as possible.

Equipment will not be left at a scene, for another agencies' use, unless approved by a Chief Officer.

Certain Equipment, such as tarps, may be left at a scene, when approved by the Incident Commander.
