

	<b>Union Center Fire Company Best Operating Guidelines</b>	
	<b>Subject: ID TAGS RED</b>	BOG series General
		Initiated 1/1/04
<b>Approved: Fire Chief __Chris Hoyt</b>	Revised 04/01/17	

Any firefighter that has been issued “Red” tag status, will be considered either as having a restriction such as a medical issue or a new member classified as a Probationary Firefighter. Along with this status, the firefighter must complete an OSHA physical per current physical policy. Any firefighter in this category will only be allowed to perform “scene support” operations in which that firefighter has been cleared to perform, by the Training Officer and Chief. Any firefighter that has been injured and is on medical restrictions by a doctor will be given “Red” tag status. The Training Officer and the Chief will dictate what role the firefighter is able to do per doctor’s orders. If any member is on Workers Compensation, that firefighter will follow all rules set forth by the Compensation Board.
